

OptiMSM[®], trusted by pet parents for over 25 years.

What's GREAT for you is GREAT for them too!

The same OptiMSM[®] that supports your joints and mobility does the same for your pet and is beneficial for your pet's overall health, including a healthy coat and nails, immunity, and reduced oxidative stress.

Demand for premium ingredients in the animal health market supports a branded ingredient strategy. Now more than ever, consumers are prioritizing the safety and origin of the products they provide their animal companions. By using OptiMSM[®], a human-grade MSM, pet owners are providing their pets the safest and highest quality MSM available!

OptiMSM[®] is a naturally-occurring sulfur source, displaying a variety of health-promoting benefits.

Mobility & Joint - MSM benefits both active and aging pets by supporting joint health, reducing soreness, and improving range of motion.

Immunity & Respiratory - Supports normal immune function.

Coat, Nail & Skin - MSM is a rich source of sulfur, an important constituent for a healthy coat, nails, and skin.
